Aatmaj Salunke

Coding and Tech Enthusiast | Applying classical strategies to modern-day projects.

I am a student at Manipal University Jaipur, B. Tech-Computer Science major. I hail from Mumbai desperate to meet new people and create connections. Highly interested in the latest developments in technology and in the field of computer science. My strongest skill is my creativity. I'm an independent web developer who is passionate about bringing my personal visions to life. Something that I love about programming is the opportunity to work with people from a wide range of disciplines.

PERSONAL PROJECTS

Online Voting System (06/2022 - 06/2022)
- This project is a software platform used to securely conduct votes and elections. As a digital platform, it eliminates the need to cast your votes using paper or having to gather in person.

Music Player (05/2022 - 05/2022)
- "Music Player-Spotify Lite" Made a Lite version of the very famous Spotify. A simple attempt by me to create a webpage to play my go-to songs on the go.

JOURNEY TO THE BEYOND (09/2019 - 10/2019)
- 'Journey to the Beyond' is a text-based story-driven choose-your-own-adventure game set in the year 2082. Your character is stranded on an alien planet, and your objective is to use your wits to figure out a way to escape it. It is a tough, yet rewarding game, which will force you to think out of the box, all without using a single pixel of graphics.

Bank Account Management System (04/2017 - 05/2017)
- A software to create and manage a bank account with functions like withdraw , deposit and check balance will help you to keep a track of the transactions made and the current balance in your bank account in just a few simple steps. Programming language used-Java
